CLINICIAN'S GATEWAY

What is Clinician's Gateway?

- ❖ Clinician's Gateway is an integrated "On-line Progress Notes System".
- ❖ The primary objective of Clinician's Gateway is to allow HIPAA-compliant electronic entry of clinical notes.
- ❖ Clinician's Gateway is designed to reduce audit exceptions due to missing data or missing notes, and assist management and staff in capturing all staff activity.
- ❖ Clinician's Gateway is a stand-alone front-end add-on to INSYST and is the first of a series of add-on packages that can be used instead of the standard built in data entry screens for INSYST.
- ❖ Web Based application utilizing Electronic Signatures.
- ❖ Allows Clinic Managers and QA/QI staff to review the work of treatment staff; a daily log report is available on demand to assist staff in capturing all staff activity.
- ❖ Clinician's Gateway integrates progress notes with the INSYST billing module and can be used for approximately 100% of the data entry into INSYST.
- ❖ HIPAA-compliant "Password Security" to keep your password unique and confidential. This is accomplished by allowing each User access to change their own Passwords whenever necessary.

MEDICATION LOG:

The Medication Log displays all of the client's medications from E-Prescribing and from the Physician's Progress Notes.

The top section of the Log will import all the medications that were e-prescribed in RxNT, an e-prescribing application that our physicians and nurses have begun using.

The bottom section imports the entries from the “[Plan](#)” section of the Physicians Progress Note. History from all Physician's Progress Notes will be displayed no matter how old.

- 1 - When writing a progress note in Clinician's Gateway, first choose the Primary code matching the Face-to-Face time and complexity of the service. Enter the time spent on that code's activity, including charting and travel, in the "Primary Clinician Time" field. *For Crisis: record ALL Charting and Travel time in the Primary Clinician time field.*
- 2 - Enter the Face-to-Face time in the "Primary FF Time" field below the "Instructions" line.
- 3 - Choose the Secondary add-on code for E/M Plus Psychotherapy or Additional Crisis. Enter the times spent on that activity into both the "2nd Face-to-Face" and "2nd Total Time" fields. *For Crisis: 2nd FF time = 2nd Total time (NO charting/ travel time)*

"Primary Clinician Time" + "2nd Total Time" = Total time for entire service.

"Primary FF Time" + "2nd FF Time" = Total Face-to-Face time for entire service.

- 4 - Some Procedures allow coding to indicate Interactive Complexity (no time recorded).

The screenshot shows the Clinician's Gateway form for a patient named TEST, CINDYTWO. The form includes fields for Client, Procedures, Service Location, Primary Clinician, and Provider. The Primary Code is 377 90839 Crisis Thpy 60 min. The Primary Clinician Time is 1:45. The Secondary Code is 378 90840 Crisis Therapy Additional minutes. 3. Choose Secondary Add-on Code if needed. Enter time spent in secondary activity in 2nd FF and 2nd Total time fields. (For additional Crisis code, do not add any charting or documentation time here.)

Drafts: **Save as Draft** when you have incomplete information. Perhaps you need to leave the note before finishing it. Perhaps you are writing a note for a client before they are registered or may never be registered (Pre-episode Note). Drafts can be found on your Home page Pending list or the View Staff page Draft list.

Pending: **Save as Pending** when the note has been completed, including client ID #. This note is ready to be finalized. Be sure to check the “Note is Complete” box before saving.

Archive: **Save to the Archive** when you want to store a Draft you *probably* will not need to retrieve. This will unclutter your Home page Pending list. Only Drafts may be stored to the Archive. Think of the Archive as an attic, a place to store things you *probably* will not need, however, you are not 100% sure. Drafts may be retrieved from the Archive via a services search or from the Drafts list on your View Staff page.

Finalized: When you are sure all of the information on a Note is correct and complete, including the client account # and your time, you may finalize. This will seal it with your electronic signature and add it to your services that are transferred nightly to InSyst for claiming.

- Provider (RU = Reporting Unit)
- Clinician's Time (do not change if you claimed time on an indirect)

12. Click **"Save as Pending."** The note can be finalized if the service is within the episode dates. Otherwise it will remain as a Draft note in that client's records.

- Click on “Save as pending.”

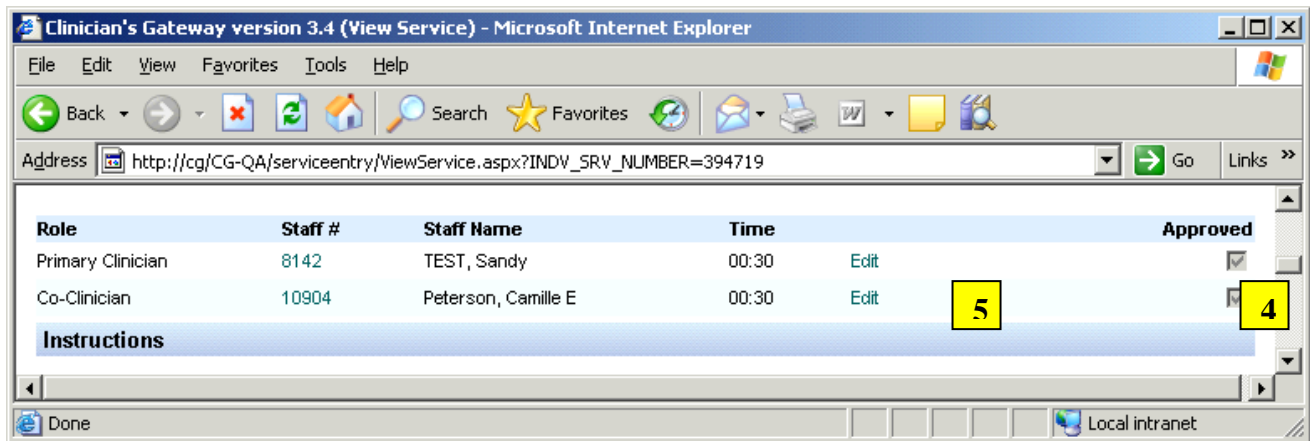

- **1** – The note will be listed on the primary and co-staff’s pending lists with a yellow dot and the word “wait” which displays the message “Waiting for clinicians to approve this service” when pointed at with the cursor. Additional Participants Feature

Occasionally, there will be a client in a group who does not have an open episode and cannot be claimed. Using the Additional Participants feature, the additional clients are added into the group total, increasing the accuracy of the claim for Medical billing. Only the part of the time dedicated to clients with open episodes is claimed. The remainder of the time can be reported using an Indirect service note for the clients without an open episode.

- Start the group note as usual. Click on the square box under the “Present” column for each open client in attendance. Verify the Reporting Units.
- **Enter the number of additional participants (clients without open episodes) into the “Additional Participants in group” field. CG will calculate the group total by adding the additional participants to the clients checked present.**

Groups with Mixed Procedure Codes

When different procedure codes are needed for individuals in a group such as an AB3632/non-AB3632 mixed group, the Additional Participants feature can be used to write group notes even when only one individual per code is present. The progress note will be in each client's electronic health record.

The note is written twice with each note having its correct procedure code. The clients who require the other procedure code are counted as "Additional Participants." CG will calculate the correct time for each individual.

For example: A group of three clients meets:

Two are not AB3632 eligible.

One is AB3632 eligible.

- Note One: Write the first note marking the two non-AB3632 clients present.
- Indicate that there is one additional participant (the AB3632 client) in the group.
- Use the non-AB3632 procedure code.

Please fill out a separate form for each service delete requested. There are three kinds of deletes, **Same-Day**, **NON-Same-Day**, and **Already Claimed** deletes. A **Same-Day** delete is for a service that was **FINALIZED TODAY** and can only be done before the 5 PM transfer from CG to InSyst. A **NON Same-Day** delete is for a service that was **FINALIZED** before today, and has **TRANSFERRED** to InSyst. **Already Claimed** Deletes are for services that have already been claimed. Contact Provider Relations to begin the process of reversing the claim before asking the Help Desk to delete the note. If a note has not been finalized and is still pending, the Help Desk cannot delete it, you must delete it yourself.

If this is a **Same-Day** delete, call the Help Desk **immediately** at 3-8181 or 510-567-8181 so that the service can be deleted from Clinician's Gateway before it is transferred to InSyst. Note that the Help Desk closes at 4:30 PM.

1. Print out **the first page** of the note you want deleted.
2. Draw a diagonal line across the note.
3. Write "Please delete this note" and the reason for the deletion.
4. If you have printed any copies of the note that have gone into the client's chart, be sure to mark on the note that it has been deleted from the system, but do not remove from chart.
5. Sign the note. If this is a **Same-Day** delete, skip to step 8.
6. Give the note and this form to the proper staff to either delete the service from InSyst or contact Provider Relations.
7. Responsible staff should sign and date this form that the service was deleted or Provider Relations was contacted.
8. Fax this form and a copy of the note to IS at 3-8161 or 567-8161.

Trouble Shooting

Client Plan End Dates:

Normally clinician's will have to set the end date to the end month 12 months from the Start Date, but sometimes this data is entered incorrectly.

If the plan has been finalized, the user must send a Treatment Plan Change Request to the BHCS Help Desk at 567-8161 or his@acbhcs.org.

Client Plan Start Dates:

These can usually be changed by doing a Revision or Renewal. Revision allows a new start date to be entered during the plan year. A Renewal starts after the end of the existing plan. Start Dates cannot be back dated.

If the Start Date needs to be earlier, then we must have a Change Request along with a signed paper Plan faxed or emailed to the Helpdesk indicating an earlier client signature. We can then do a QA override to attest to the Start Date change.

Incorrect Reporting Unit:

If the Plan has not been finalized, reject the Plan, Edit it, and change the RU. If the Plan has been finalized, either do a new revision to change the RU, or submit a Treatment Plan Change Request form to the Help Desk.

Revision being used when a Renewal was intended: (Revisions keep the same end date while Renewals start after the current plan's end date)

Delete the Revision, go to the previous plan and click Renew.

If the dates don't match up we can adjust the end Date of the previous plan to cover the period for auditing purposes only.

Plan Submitted for Authorization not appearing on Supervisor's Home page:

Verify the Reporting Unit is set correctly. If not Staff must Reject the plan and update to the correct Reporting Unit and Submit for Authorization again.

Verify that the Checkboxes are checked next to the authorizer's names in the "Authorization Signatures" section. Click "Submit for Authorization" button.

Client Signature details are incorrect:

Edit the plan. Go to the **Consumer/Client Life Plan**

Go down to **Consumer/Client Participation** and fill out the appropriate responses.

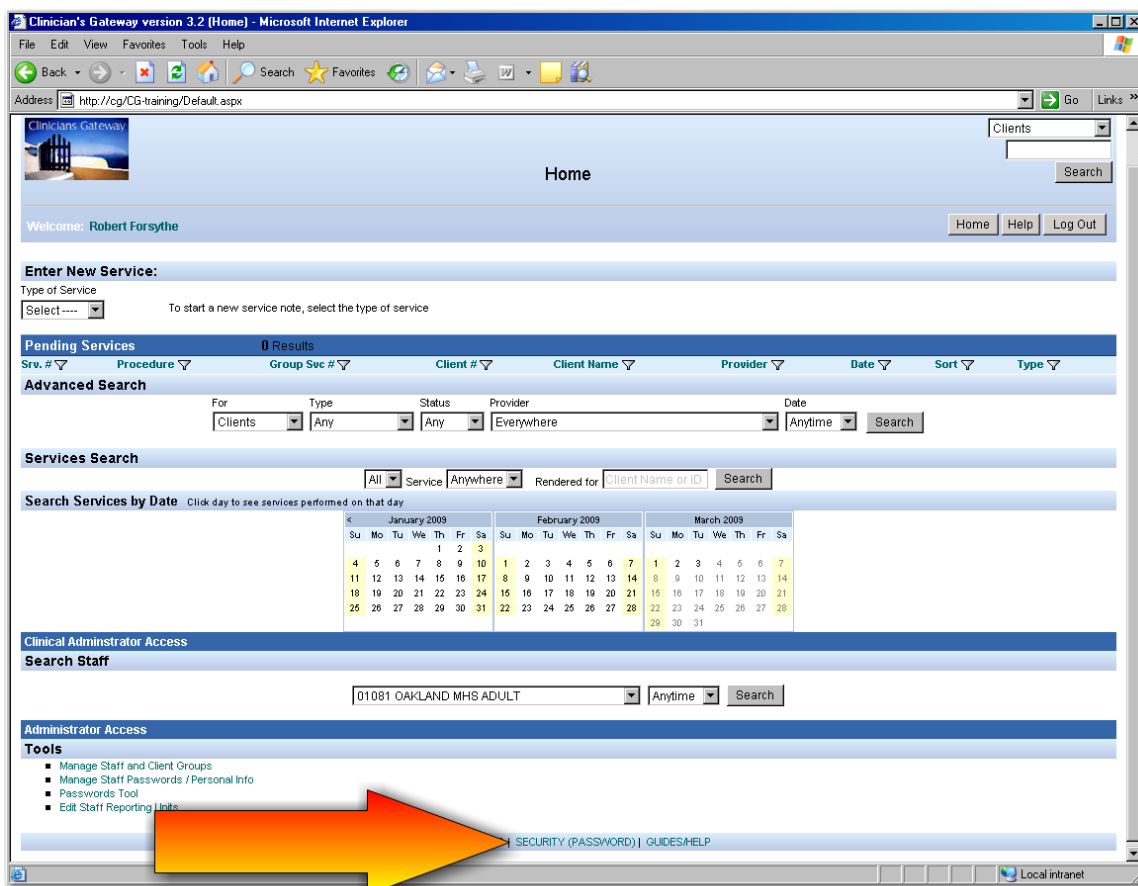

Authorizer Signatures not showing:

Verify that the Checkboxes are checked next to the authorizer's names in the "Authorization Signatures" section. Then click "Submit for Authorization".
