## TRAINING OPPORTUNITY

### Introduction to Family Based Treatment for Treating Eating Disorders in Children and Adolescents

ACBH will be providing an eight-week introductory course on Family-Based Treatment (FBT).

- This course is meant for county, CBO, and Network clinicians who directly work with children and adolescents with eating disorders.
- The goal is to increase clinicians' exposure to and knowledge of FBT, an evidence-based treatment for children and adolescents with eating disorders. This is an introductory course that does not replace the formal certificated FBT trainings.
- The class sessions will be provided via Zoom from March through April 2022, from 1 to 2:30pm.
- CE credit is currently pending review and approval.

3/2/22	3/30/22
3/9/22	4/6/22
3/16/22	4/13/22
3/23/22	4/30/22

An informational presentation will be hosted on 1/26/22, at 1pm for more information and to answer any questions. For Zoom link and more information reach out to:
