

1-4-18 ACBHCS Mental Health Inpatient Medi-Cal Included Diagnoses List Alpha by ICD-10 Name  
(Crossed out diagnoses are not allowed. Always use ICD-10 codes)

**Instructions:** Crossed out diagnoses are not recommended for ACBHCS Medi-Cal claiming. The left column is the complete 10/13/2017 DHCS Inpatient Included list (with a few additional diagnoses indicated by "superscript<sup>2</sup>"), however, *not all ICD-10 codes on the DHCS list are recommended by Alameda County BHCS*. **It is highly recommended that providers use the ACBHCS list in the right column.** Whenever possible, ICD-10 diagnoses that are also DSM-5 diagnoses should be used (as indicated). Available DSM-IV-TR diagnoses are listed if no DSM-5 diagnosis exists for an allowed ICD-10 code. Diagnoses are repeated when there are multiple potential cross walked diagnoses or different diagnoses with the same code and indicated by {brackets}.

**Specifiers:** Both DSM-IV-TR and DSM-5 diagnoses have uncoded specifiers that refine diagnoses. Clients' medical record must include the ICD-10 code and ICD-10 name (with DSM-IV/DSM-5 name preferred), and all relevant specifiers. A few specifiers are included below to indicate accurate cross walked diagnoses; however this is not an exhaustive list.

**Substance Use Disorders:** Per DSM-5, use the ICD-10 code with the specific substance name, not necessarily the category name of the diagnosis.

DHCS ICD-10	DHCS ICD-10 Name	ICD-10	DSM-5 Name/Descriptor (Unless Otherwise Indicated)
<b>DHCS Inpatient Included List (except as noted<sup>2</sup>)</b>		<b>ACBHCS Inpatient Included List</b>	
F40.241	Acrophobia	F40.248	Specific Phobia, Situational
