Instructions: ACBHCS subcontracted SUD providers may only provide treatment for SUD related diagnoses that are present on this Included list. Criteria for all of these included diagnoses can be found in the DSM-5. For each SUD diagnosis being treated, the LPHA making the diagnosis must include a written basis for the included diagnosis(es) along with specific individualized signs, symptoms, and timeframes of the diagnosis(es). When charting SUD diagnoses, "the clinician should use the code that applies to the class of substance but record the name of the specific substance" (DSM-5).
