

Use of CANS/ANSA Data

Reporting at the Individual, Program and Agency levels

Alameda TCOM Provider Collaborative

Name

Agency/Role

How does your agency currently use data?

Who uses it and for what?

Pair and Share

- 1. How do you do the assessment/data differently now that you have the CANS?*
- 2. How do you use data for treatment planning, and how do you involve clients in process?*
- 3. What are the barriers to using data within your organization?*

Why use data?

- Need to learn more about the clients we serve
- Ease of communication regarding needs & strengths
- Want to facilitate effective decision making
 - At every level of the system
 - Based on a shared understanding of current needs & strengths

What's your agency's question?

- Prevalence
 - Who are the clients we serve?
 - What are their needs?
 - Are there clusters of needs we commonly see together?
- Outcomes
 - Are clients improving?
 - Are they improving in the areas we anticipated?
- Workload
 - Do clinicians have similar intensity levels on their caseloads?
 - Are we assigning cases properly?

Focus on individual use

- What can we do to use data between two individuals
 - Between client and clinician
 - Communication about needs and strengths
 - Collaborative scoring
 - Between clinician and supervisor
 - Caseload intensity
 - Caseload progress
 - Average impact

Consumer Friendly "Thumbs" Report

- ✓ Strengths first
- ✓ Brief descriptors
- ✓ Accessible item labels

Improved Needs. Great job!

	4/1/11	5/24/11
Attention/Impulse – Trouble concentrating	Needed Work (2)	Got Better! (1)
Risk to Self – Dangerous behaviors towards yourself	Needed Work (2)	Got Better! (1)

Your Strengths. Keep it up!

	4/1/11	5/24/11
Stable Relationships – Consistency of relationships with family	(1)	(1)
Educational – Having a plan to stay in school	(1)	(1)
Optimism – Feeling positive about the future	(1)	(1)

NOTES & KEY

NEEDS: scores of 2 or 3 mean we have a challenge.
STRENGTHS: scores of 0 or 1 mean you are strong,
 & scores of 2 or 3 means you have more potential.

Your Needs. You can do it!

	4/1/11	5/24/11
Controlling Emotions/Body Reactions – Whether your level of energy/emotion goes up & down	(3)	(3)
Depression/Anxiety – Whether you feel nervous or down	(2)	(2)
Adjustment to Trauma – How you are reacting now to bad past events	(2)	(2)
In All Situations – Whether you have challenges in one or many areas	(2)	(2)
Medical – Health problems	(2)	(2)
School Achievement – How well you are learning at school	(2)	(2)
School Behavior – How you act at school	(2)	(2)

Strengths That Are Weak. Potential!

	4/1/11	5/24/11
Family – How you are doing in your family	(2)	(2)
Interpersonal – Getting along with others	(2)	(2)
Well-being – Enjoying the good & coping with the bad	(2)	(2)
Talents/Interests – Hobbies/skills that you enjoy	(2)	(2)
Inclusion – Do you feel part of a group	(2)	(2)

How could using this data inform your practice?

How would you envision using these types of reports?

Are there reports that you would find useful that aren't in OA?

What are questions you want to answer with the data?
