Dear ACBHD Provider Community,

As we continue the implementation of IP-CANS and strengthen collaboration with our Placing Agency partners (Alameda County Probation Department and Alameda County Department of Children & Family Services), we are seeking your input to help establish key indicators using the CANS assessment. The information collected will be used to tailor agency-specific training and to inform the development of CANS training courses that best meet the needs of our provider community.

Please note: ONLY one questionnaire per agency should be completed.

Please complete the questionnaire and return it via email to Jessica Vigil at Jessica.Vigil2@acgov.org no later than **Friday, February 20, 2026**. If you have any questions, please contact Jessica Vigil directly.

Thank you for your participation and continued collaboration.
