

ACBH Workforce, Education, and Training Unit is proud to announce our newest cohort of Spanish Speaking Mental Health First Aid Instructors. The new Mental Health First Aiders come from a variety of different Alameda County Community Based Organizations as well as our own. They are dedicated to bringing this essential training to the different Spanish Speaking Alameda County communities and are busy planning their first trainings, which will be a combination of in-person and virtual.

Please join us in congratulating the following incredible individuals.
