

Alameda County Behavioral Health is pleased to offer a FREE training:

Suicide Assessment and Intervention

(YOUTH Focused, 6 CEs)

Part 1: September 30, 2024 (Mon)

Part 2: October 1, 2024 (Tues)

9:00am - 12:30pm (both days)

Must attend both days to complete the training

Location: Online

(webinar link to be emailed to registered participants a few days before training)

Audience: Mental health professionals who work with children or adolescents. This training is reserved for Alameda County Behavioral Health, and *contracted* Provider Staff or CBOs.

Trainers: Staff of Crisis Support Services of Alameda County (CSS)

Cris Rita, MA, is the Community Education Coordinator & Lead Instructor at CSS. She provides suicide and related mental health education to all members of the Alameda County community. Positions held include: 24-Hr Crisis Line Volunteer Trainer, 24-Hr Crisis Line Overnight Supervisor, 24-Hr Crisis Line Shift Supervisor, Teens for Life Health Educator.

Description: The workshop uses a combination of teaching methods, including didactic work, lecture, and discussion. One day 1, the workshop covers common myths and perceptions about suicidal behavior, suicide statistics among youth, trauma, and suicide theory; including Thomas Joiner's model: The Interpersonal Theory of Suicide. Risk factors, warning signs, and protective factors for youth populations will be introduced. On day 2 Participants will learn methods of suicide risk assessment and will be introduced to screening tools that aid in determining risk, how to talk about or ask about suicide with a client, and the use of Safety Plans to reduce suicide risk. Emphasis will be placed on how to support others and themselves if they experience the loss of a client to suicide through four supportive ways.

Learning Objectives – *by the end of the training, participants will be able to:*

1. Ask five basic questions to determine suicidality.
2. Identify how suicidal risk and behavior may differ in diverse communities by reviewing current research and statistics.
3. Identify suicide risk in children and adolescents by identifying five risk factors.
4. Identify the five most common warning signs for children and adolescents.
5. Identify three protective factors for both children and adolescents.
6. Identify the four domains of suicide risk assessment.
7. Review three assessment screening tools.
8. Demonstrate competence in using lethal means counseling with client and family or caregivers through four collaborative steps.
9. Be able to list the six steps in developing a safety plan
