

African American Elder Mental Health and Substance Use

COURSE DESCRIPTION:

This course will present core concepts geriatric mental health but will do so with an emphasis on older adults of African American and Caribbean-American background. There will be some discussion of approaches to mental illness, particularly anxiety disorders, depression, and psychotic disorders. There will be some exploration of cognitive disorders and substance use disorders as well. Special attention will be paid to elder abuse and support for caregivers.

TARGET AUDIENCE:

Community-Based Organizations and ACBH contracted Mental Health and Substance Use Disorder Provider staff.

MEASURABLE LEARNING OBJECTIVES:

- List five core concepts of psychopharmacology for elders
- List five signs of cognitive impairments
- Identify three assessment tools that can help clinicians assess mental health conditions
- List four ways to address elder abuse
- Identify four factors that can impact the outcomes of depression in Black elders
- Identify four factors related to substance use and geriatric mental health

ABOUT THE PRESENTER

Karinn Glover, MD, MPH, Assistant Professor of Psychiatry and Behavioral Sciences at Albert Einstein College of Medicine and Attending, Adult Outpatient Psychiatry Division, Montefiore Hospital, Bronx NY. Currently Assistant Professor of Psychiatry at the Albert Einstein College of Medicine, Dr. Glover teaches psychopharmacology and aspects of psychotherapy to Psychiatry and Family Medicine residents. Her decade-plus experience as a psychiatrist and leader in the primary care division at Montefiore Health System has informed her approach to health equity, Diversity, Equity, Inclusion and Belonging (DEI+B), and the styles of leadership that produce organizational success.
