

Presented by Seneca in partnership with Alameda County Behavioral Health

NARCAN Training for Professionals: Opioid Overdose Identification and Emergency Care – 1.5 CAMFT–RN CE Credits

WHEN:
Date: Oct 28th 2026
Time: 1:00pm - 2:30pm

For Registration:
[Click Here!](#)

INTENDED FOR:
Alameda County Behavioral Health and contracted providers staff.

About the Course:

This training is being provided to improve harm reduction and provide education surrounding opioid abuse & overdose by focusing on the use of NARCAN as an emergency medication. With so many staff members working within the community this provides them with the knowledge to respond in an emergency to an opioid overdose by “recognizing signs of an opioid overdose” (National Harm Reduction Coalition, 2020), understanding the dangers of opioids substances utilizing “One Pill Can Kill” (Drug Enforcement Administration, n.d.), and accessing resources such as free Narcan, e.g. “Narcan Vending Machines.

1.5 hours instructional time – 0 hours breaks

Educational Goals:

The goal of this training is to give those who work in the community the knowledge to provide emergency care utilizing Narcan in an emergency where possible opioid overdose has occurred. The attendee will be equipped with knowledge of what Narcan is and how it works, how to administer, how to assess for possible overdose, and understand necessary monitoring after medication administration to support people who may be experiencing opioid overdose.

Measurable Learning Objectives:

- Identify 3 drugs that are classified as opioids and their subtypes.
- Identify 4 symptoms of opioid overdose.
- Identify 4 symptoms of opioid withdrawal.
- Identify the 5 steps for administering Narcan.
- Identify 3 methods of harm reduction.

About the Presenter:

Hi, I’m Tiffanie. I am a Registered Nurse with a bachelor’s degree in nursing and hold the position of Community Based Services Nurse Manager as well as provide direct nursing support to a variety of Seneca programs. I found Seneca nearly 9 years ago when my husband was stationed in Ventura California, and I had the privilege of working with the Ventura CSU. In my 20+ years of health care experience Seneca goes unmatched in its care and compassion, and I am grateful to be a part of that and love being a Seneca nurse. Prior to joining the Seneca team, I spent 8 years in the Emergency Department and know first-hand the benefits of Narcan and early administration. I have been providing this training on Narcan for two years. Clinicians will benefit from this training by having the knowledge to act in an emergency opioid overdose. With so many of our team members working within the community this is an added tool to support community safety and potentially save a life.

Continuing Education Credits

This training meets the qualifications for 1.5 hours of continuing education credit for LMFTs, LCSWs, LPCCs, and/or LEPs as required by the California Board of Behavioral Sciences. Seneca Family of Agencies is approved by the **California Association of Marriage and Family Therapists** to sponsor continuing education for LMFTs, LCSWs, LPCCs, and/or LEPs. Provided by Seneca Family of Agencies, Provider #135057. Seneca Family of Agencies is a provider approved by the **California Board of Registered Nursing**, Provider #15222. This training meets the qualifications for 1.5 hours of continuing education credit for Registered Nurses as required by the California Board of Registered Nursing. BRN approval extends only to continuing education courses and does not include tour arrangements.

CERTIFICATES To be eligible to receive a CEU certificate, trainees must meet the following criteria: 1) have full course attendance, missing no more than 15 total minutes of instructional time, 2) complete a post-course evaluation that includes their name (the same name they used to register). CEU certificates are not sent automatically.

If eligible, please request your certificate using the [Certificate Request Form](#).
