**Background**

CalAIM is a California initiative led by the Department of Health Care Services (DHCS) that aims to provide broad delivery system, program, and payment reform across the Medi-Cal system. The goal of the initiative is to transform the Medi-Cal delivery system, moving it towards a population health approach that prioritizes prevention and whole person care. The vision is to “meet people where they are in life, address social drivers of health and break down the walls of health care.”
