Background

California Advancing and Innovating Medi-Cal (CalAIM) is a Department of Health Care Services (DHCS) initiative that aims to provide broad delivery system, program and payment reform across the Medi-Cal system. This is a multi-year initiative that began in 2022, at which time significant changes were made to documentation requirements.

Required Training Sessions

ACBH [memo 2022-28](#) issued in July 2022, advised providers of the requirement to review the training videos provided by California Mental Health Services Authority ([CalMHSA](#)) on their [Learning Portal](#) to become familiar with these changes. Instructions for accessing the Learning Portal and additional details were provided in the memo.

To continue supporting Fee for Service providers with these important changes, the ACBH Quality Assurance department is pleased to offer two training sessions, 1) Fee for Service CalAIM Documentation Training 2) Fee For Service Mock CQRT Training. The second training, will be offered twice, to allow as many providers as possible to attend in person.

The training sessions will be recorded and posted on the [Quality Assurance Training page](#). **To attend these sessions, please register using the links provided.**
