

SAVE THE DATE: TCOM (ANSA & CANS) COACHING AND LEARNING COMMUNITIES

ANSA and CANS learning communities for users (e.g., clinicians, supervisors, case managers, family partners, etc.) and coaching for Trainers will be offered beginning December 2016. Learning communities are meetings where didactic information is presented and discussion is facilitated on specific topics relevant to using the ANSA or CANS (e.g. using ANSA/CANS in treatment planning). Trainer Coaching is a place for ANSA/CANS certified trainers to get support and resources to assist in providing ANSA/CANS trainings within his/her agency. These meetings are free and open to Alameda County providers. A link to registration instructions and complete locations will be provided at a later date.
